Peace One Day Announces the World's Largest Global Call for Peace – Live on 21 September 2025

Peace One Day is proud to announce that on 21 September 2025, the organisation will deliver the World's Largest Global Call for Peace, streaming live to millions across the globe.

This unmissable Peace Day Live Stream will feature world-class musical performances, powerful speeches, and contributions from global leaders, peacebuilders, and changemakers. From every corner of the planet, voices will unite to inform, inspire and engage — raising awareness of Peace Day and driving real action towards a more peaceful world.

Founder Jeremy Gilley said:

"Our mission is clear — to raise awareness and manifest action on Peace Day. This is the day where more people think about peace than any other day of the year. It's also the day we see the largest recorded reduction in violence globally. This live transmission is vital to that impact."

The urgency of the moment is undeniable. In 2025, more wars are raging than at any time since the Second World War. Violent conflict has surged by 65% since 2021, and more than two billion people are currently living in conflict-affected regions. The Peace Day 2025 Digital Broadcast is a timely and powerful rallying cry — connecting humanity in a shared mission for peace.

Dave Stewart, Peace One Day Ambassador, added:

"This global stream is a powerful act of unity. At a time of unprecedented global suffering, we must come together — beyond borders, beyond politics, beyond creed — to take a stand for peace. I'm honoured to be part of it."

Editor's Notes:
Peace One Day Filmmaker Jeremy Gilley founded Peace One Day in 1999 to establish an annual Peace Day with a fixed calendar date and document the process. In 2001 Peace One Day's efforts were rewarded when the member states of the United Nations unanimously adopted the first ever annual day of global ceasefire and non-violence on the UN International Day of Peace, fixed in the calendar as 21 September – Peace Day. Peace One Day's overarching objective is to ensure that people are aware of the day and engage all sectors of society in the day's peaceful observance and celebration.

As well as leading a number of high-profile Peace Day campaigns in sport, education, the environment, and within the corporate sector, Peace One Day has produced 38 major broadcast celebrations, including performances by Sir Elton John, Akon, Annie Lennox, Lenny Kravitz, Youssou N'Dour, Yusuf Islam, Peter Gabriel, Patti Smith, Bryan Adams, John Legend, Dave Stewart, Jimmy Cliff and many others.

We are inspired by the incredible information that there appears to have been a 15% decrease in deaths on 21 September, compared to other days in the year.
